

ST. LUKE'S HOSPITAL, NABLUS, WEST BANK

St. Luke's Hospital, the only charitable hospital in the northern West Bank city of Nablus, offers a full range of medical services and boasts particularly well-regarded neurosurgery, obstetrics, and neonatal departments.

This city of 350,000 is also home to a large Palestinian refugee camp. Travel restrictions and checkpoints make everyday life difficult for the people of Nablus and surrounding communities so ready access to comprehensive, quality healthcare at a local hospital is crucial. The services offered by this 119 year-old hospital are a lifeline for the 15,000 patients seen at its outpatient clinic each year.
